New Water Dispensers and Filtration Systems Installed at Our School

Dear parents,

We are pleased to announce that our school's Parent Association has funded the installation of modern water dispensers and advanced filtration systems. This initiative ensures high-quality drinking water and contributes to the hydration and well-being of our students.

New Wall-Mounted Water Dispensers

✓ Durable & Functional: The dispensers are made from high-quality stainless steel and anodized aluminum, ensuring durability and a sleek appearance.

✓ User-Friendly Design: Equipped with selection buttons, allowing students to choose between cold or ambient-temperature water with ease.

✓ Ideal for School Environments: Their ergonomic design saves space and encourages students to develop healthy hydration habits.

Advanced Water Filtration Systems

To ensure excellent drinking water quality, each dispenser is equipped with a triple filtration system:

✓ Sediment Filter: Removes solid particles and sediments, keeping the water clear.

✓ Activated Carbon Filter: Reduces chlorine and other chemicals, improving the taste and odor of the water.

✓ Ultraviolet (UV) Light: Eliminates harmful microorganisms, ensuring safe and clean drinking water.

Environmental Benefits and Personal Responsibility

The installation of these systems benefits not only the health of our students but also the environment. By using these dispensers, the need for bottled water is significantly reduced, which helps minimize plastic waste. This initiative promotes sustainability and fosters a 'green' school mindset.

Responsible Use – A Personal Bottle is Required

For hygiene reasons, students will only be able to access water using their own reusable bottle. Please ensure that your child brings their personal bottle to school every day.

Commitment to a Healthy & Sustainable School Environment

This upgrade highlights our commitment to providing a healthy, safe, and environmentally responsible school setting.

We sincerely thank the Parent Association for their support and continuous contributions to the well-being of our students!

Best regards,
The School Administration
